Nikita Ramesh Patil (Emp. ID - 968662)

Tata Consultancy Services
Email: nikitar.patil@tcs.com Phone: 9970815079

Experience Summary

I am an associate with Tata Consultancy Services for the last 6 years with a total of 6 years of work experience. My main area of experience has been project delivery of various sizes. I have worked primarily in the domain of financial services and banking. My technological forte is Automation Testing using Selenium, UI path, GIT and I am also proficient in Java. My current role is Senior Automation Engineer of Westpac Bank, leading a team of twelve.

Technology

Below is a list of important hardware, software products, tools and methods that I have worked with.

Hardware	Software Products	Tools	Methods
Windows 10, Windows XP, Linux	Selenium, Git, Bitbucket, Postman, Rest API, UI Path, Oracle 19C and 11g database, SQL Developer 2012, Robot Framework, Docker, Sybase, Agile (Scrum)	Eclipse, Oracle, IntelliJ, HP-ALM, UI-Path, Jira	Agile, Waterfall

Qualifications

Degree and Date	Institute	Major and Specialization
Bachelor of Engineering (Jul 2011- Jul 2015)	Government College of Engineering, Aurangabad, State -Maharashtra	Electrical, Electronics and Power (EEP)
Higher Secondary Certificate (11th &12th standard) (Jul 2009 – May 2011)	Maharashtra State Board of Secondary and Higher Secondary Education, Pune, State -Maharashtra	Science and Math
Secondary School Certificate (10th standard) (Jun 2008- Jun 2009)	Maharashtra State Board of Secondary and Higher Secondary Education, Pune, State -Maharashtra	Science and Math

Project Thesis

Project Title	Westpac Bank of Australia, Tata Consultancy Services
Description	Westpac is Australia's first bank with a range of innovative financial packages to support your personal, business or corporate banking needs
Role	Test Lead

Responsibilities	• Responsible for developing test automation scripts using data-driven and hybrid framework and test suites using **Java-Selenium WebDriver, BDD tools like Cucumber** • Responsible for developing test automation of Desktop based applications using **Java-Winium WindowsDriver, BDD tools like Cucumber** • Responsible for **CI/CD pipeline using Git, Bitbucket and JENKINS** • Designing automation test scripts and enhancement packages for regression testing. • Automation Test Effort Estimation and Planning. • Preparing Test Strategy and Approach. • Test suite maintenance and refactoring. • Build code using tools like Maven and Gradle • Coordinating with Client and Onshore counterparts for test prioritization and Planning. • Generate Report using report rendering tools like Extent Report, Serenity Frameworks • Reporting, Progress Tracking and Logging of issues in HP-ALM and JIRA. • Experience in writing SQL query for CRUD operations • Designing Excel VBA scripts as per requirements • Performing API testing using Postman • Attending and coordinating Daily Stand-up Meetings for action plan. Involved in agile ceremony like sprint planning, daily stand up, sprint respective.

Project Title	Royal Bank of Canada, Tata Consultancy Services
Description	RBC is a global financial institution with a purpose-driven, principles-led approach to delivering leading performance, and creating value for their clients and communities
Role	Senior Test Analyst
Responsibilities	• Responsible for developing test automation scripts data-driven and hybrid frameworks and test suites using Java Selenium WebDriver, TestNG • Responsible for test case design and execution through each sprint. • Creating and debugging automated regression tests. • Build and code deployment using Maven, git and Bitbucket • Handle Defect tracking and Test management using HP-ALM and JIRA • Creating Master Test Plan (MTP) • Performing API testing using REST SOAPUI • Designing Excel VBA scripts as per project requirements • Responsible as offshore SPOC for several projects. • Coordinating with Onshore and Business to understand priority areas. • Attending and coordinating Daily Stand-up Meetings for action plan. Involved in agile ceremony like sprint planning, daily stand up, sprint respective. • Experience in writing SQL query for CRUD operations • Reporting Test progress and issues. • Test Planning and Test Case story points estimation.

Project Title	Russell Investment US, Tata Consultancy Services
Description	Russell Investment is a leading global investment solutions partner, dedicated to improving people's financial security
Role	Test Analyst
Responsibilities	• Responsible for automation test case design and execution through each sprint using Java Selenium. • Creating and debugging automated regression test suites. • Developed automated Test Cases using element locators, webdriver methods, core java features and TestNG annotations • Creating Requirement Traceability matrix Using HP- ALM • Reporting Test progress and issues. • Test Planning and test case story points estimation. • Identifying slack areas and Monitoring KPI's. • Involvement in Test Estimation and Test strategy implementation. • Well acquainted with all phases of SDLC and STLC • Coordinating Daily Stand-up Meetings for action plan

Assignments

Project	Westpac Bank, Tata Consultancy Services
Customer	Westpac, Australia
Period	13/11/2018 to TILL NOW
Description	Westpac is Australia's first bank with a range of innovative financial packages to support your personal, business or corporate banking needs
Responsibilities	• Responsible for developing test automation scripts using data-driven and hybrid framework and test suites using **Java-Selenium WebDriver, BDD tools like Cucumber** • Responsible for developing test automation of Desktop based applications using **Java-Winium WindowsDriver, BDD tools like Cucumber** • Responsible for **CI/CD pipeline using Git, Bitbucket and JENKINS** • Designing automation test scripts and enhancement packages for regression testing. • Automation Test Effort Estimation and Planning. • Preparing Test Strategy and Approach. • Test suite maintenance and refactoring. • Build code using tools like Maven and Gradle • Coordinating with Client and Onshore counterparts for test prioritization and Planning. • Generate Report using report rendering tools like Extent Report, Serenity Frameworks • Reporting, Progress Tracking and Logging of issues in HP-ALM and JIRA. • Experience in writing SQL query for CRUD operations • Designing Excel VBA scripts as per requirements • Performing API testing using Postman • Attending and coordinating Daily Stand-up Meetings for action plan. Involved in agile ceremony like sprint planning, daily stand up, sprint respective.

Solution Environment	Selenium
	Git, Bitbucket
	Postman, Rest API
	UI Path
	Windows 10 Oracle 19C and 11g database, SQL Developer 2012
Tools	Eclipse, Oracle, IntelliJ, HP-ALM, UI-Path, Jira
Highlights	On the Spot award for Best Performer , Many Client Appreciation for Time saving Automation Scripts

Project	Unallocated (No project assigned)
Customer	Tata Consultancy Services
Period	25/10/2018 to 12/11/2018

Project	Royal Bank of Canada, Tata Consultancy Services
Customer	Royal Bank of Canada
Period	3/04/2018 to 24/10/2018
Description	RBC is a global financial institution with a purpose-driven, principles-led approach to delivering leading performance, and creating value for their clients and communities
Responsibilities	• Responsible for developing test automation scripts data-driven and hybrid frameworks and test suites using Java Selenium WebDriver, TestNG
	• Responsible for test case design and execution through each sprint.
	• Creating and debugging automated regression tests.
	• Build and code deployment using Maven, git and Bitbucket
	• Handle Defect tracking and Test management using HP-ALM and JIRA
	• Creating Master Test Plan (MTP)
	• Performing API testing using REST SOAPUI
	• Designing Excel VBA scripts as per project requirements
	• Responsible as offshore SPOC for several projects.
	• Coordinating with Onshore and Business to understand priority areas.
	• Attending and coordinating Daily Stand-up Meetings for action plan. Involved in agile ceremony like sprint planning, daily stand up, sprint respective.
	• Experience in writing SQL query for CRUD operations
	• Reporting Test progress and issues.
	• Test Planning and Test Case story points estimation.
Solution Environment	Selenium
	Git, Bitbucket
	Rest API
	Windows 10
	SQL Developer 2012

Private & confidential

Tools	Eclipse, Oracle, IntelliJ, HP-ALM, Jira
Highlights	Star Performer Award, Many Clients Appreciation for Defect free project delivery

Project	Unallocated (No Project assigned)
Customer	Tata Consultancy Services
Period	29/02/2018 to 02/04/2018

Project	Russell Investment US, Tata Consultancy Services
Customer	Russell Investment US
Period	02/07/2016 to 28/02/2018
Description	Russell Investment is a leading global investment solutions partner, dedicated to improving people's financial security
Responsibilities	• Responsible for automation test case design and execution through each sprint using Java Selenium. • Creating and debugging automated regression test suites. • Developed automated Test Cases using element locators, webdriver methods, core java features and TestNG annotations • Creating Requirement Traceability matrix Using HP- ALM • Reporting Test progress and issues. • Test Planning and test case story points estimation. • Identifying slack areas and Monitoring KPI's. • Involvement in Test Estimation and Test strategy implementation. • Well acquainted with all phases of SDLC and STLC • Coordinating Daily Stand-up Meetings for action plan
Solution Environment	Selenium Git Windows 10 SQL Developer 2012
Tools	Eclipse, Oracle, IntelliJ, HP-ALM, Jira
Highlights	On the Spot Award, Many Clients Appreciation for Defect free project delivery

Project	Unallocated (No Project assigned)
Customer	Tata Consultancy Services
Period	14/02/2016 to 01/07/2016

Project	Initial Learning Program, Tata Consultancy Services
Customer	Tata Consultancy Services, Thiruvananthapuram
Period	19/10/2015 to 13/02/2016

Key Competencies & Skills

My Competency Profile includes the following

Skill	Proficiency (E0 to E4)
Selenium	E2
User Acceptance Design & Execution - Software Testing	E2
Core Java	E0
Digital – DevOps Monitoring	E0

* The competencies mentioned above have to be taken from your Competency profile. If you have not yet prepared / updated the same, please ensure that you do so, through: Ultimatix-> iCALMS->Assessment

Career Profile

(List the companies you have worked with, recent ones first)

Dates	Organization	Role
19/10/2015 to Till Now	TATA Consultancy Services	IT Analyst

Training / Continuing Education Summary

Program or Course	Coverage	Dates
Initial Learning Program, Tata Consultancy Services	Core Java. C, C++, Communication, Presentation Skills	19/10/2015 to 13/02/2016

Personal Details

Date of Birth	29/04/1994
Nationality	Indian

Passport Details

Name as on passport	Relationship	Passport Number	Date of Issue	Expiry Date	Place of Issue
